

## Professional Profile

<b>Chris Pearce</b>	IEng, MIET, ACIBSE
<b>Position:</b>	Associate
<b>Qualifications:</b>	Incorporated Engineer with Engineering Council UK
<b>Professional Associations:</b>	Member of Chartered Institution of Building Services Engineers. Member of Institute of Electrical Engineers

### Profile

Chris joined ESC in 2007 and brings a wealth of design and managerial experience in building services consultancy. He became an Incorporated Engineer in 1999 and has 18 years design experience with major contracting and consulting engineering companies.

He has undertaken comprehensive building surveys and feasibilities through to the detailed design and project monitoring of major projects.

### Principal Interests

- Use of Best Practice methods for the development of efficient solutions
- Maintaining clients' expectations
- Remain at the cutting edge of electrical design and innovations

### Experience Profile

Chris' experience includes many commercial developments and was Project Manager/Design advisor for 'GlobalCenter' data centres in London and Dublin each with a construction value in excess of £50 Million. Chris has provided services to Cap Gemini Ernst and Young, Reuters (Geneva), NTL and GI Partners (Frankfurt), NIS (Northgate Information Solutions, Marsh & McLennan and many others.

His further experience includes full design duties for a number of office developments. Of particular interest is his proven track record on UK based call centres for Clients such as South Staffs Water and 118UK, the new replacement telephone directory services company.

He has also gained extensive experience working on fast track projects where speed of response, accuracy of design and cost control was of paramount importance.
